

E-Rail offers a wide range of DIN rail accessories. From mounting clips to standoffs and insulators to screws, our product line provides the necessary parts you need when working with DIN rail. All of our accessories are RoHS compliant and manufactured to the level of quality you expect.

ER-35 Mounting Clip

Our steel ER-35 mounting clip is the ideal part for mounting components onto DIN rail. Requires an M4 mounting screw.
Part # 320.900

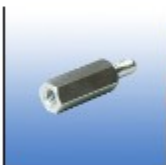

HD-35 Mounting Hardware

The HD-35 mounting hardware is designed to enable mounting large/heavy products to DIN Rail. This unique clamp utilizes 2 M6 screw to mount your product and has both a left and right oriented part.
Part # 100.031L/100.031R

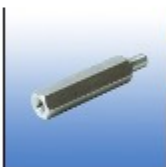

BMS15

Made of 10 mm hex steel bar, our 15 mm spacer comes with one male M6 thread on one end and one female M6 thread on the other.
Part # 100.215

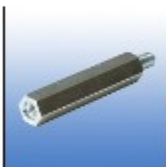

BMS25

Made of 10 mm hex steel bar, our 25 mm spacer comes with one male M6 thread on one end and one female M6 thread on the other.
Part # 100.225

BMS40

Made of 10 mm hex steel bar, our 40 mm spacer comes with one male M6 thread on one end and one female M6 thread on the other.
Part # 100.240

BMS50

Made of 10 mm hex steel bar, our 50 mm spacer comes with one male M6 thread on one end and one female M6 thread on the other.
Part # 100.250

BIS25

This 25 mm red epoxy insulator enables you to raise and isolate your DIN rail off of the back panel. Comes with one M6 x 10 mm threaded female on each end.
Part # 100.325

BIS30

This 30 mm red epoxy insulator enables you to raise and isolate your DIN rail off of the back panel. Comes with one M6 x 10 mm threaded female on each end.
Part # 100.330

BIS40

This 40 mm red epoxy insulator enables you to raise and isolate your DIN rail off of the back panel. Comes with one M6 x 10 mm threaded female on each end.
Part # 100.340
